Variations in temperature, humidity, thickness, tinting or surface type, etc. may lead to changes in drying, in coverage or in other properties.

Directions for use

GENERAL REMARKS:

Application : Preferably apply by thin layers.

Surface preparation : The surfaces have to be clean, dry and suitably primed. The primer has to be thoroughly dry before applying the oil colours. Otherwise, cracks might appear as oil colours progressively dry.

On canvas or fabric : GESSO TITAN Universal Primer.

On wood, tablex, cardboard or alike: GESSO TITAN Universal Primer or TITAN Water-based Sealing Primer.

Overpainting : They can be overpainted, bearing in mind to apply FINE over THICK to avoid cracking and unwished porosity differences.

FINE has to be understood as : low oil content, thin, fluid

THICK has to be understood as: thick (oily), viscous.

Always keep the works indoors.

Precautions

Always read the pack label before use. For more information, please refer to the Safety Data Sheet.

Issue date: 2018-09

Any technical sheet is automatically cancelled by a subsequent sheet or five years after the issue date. We guarantee the quality of our products. However, we disclaim any liability in relation to factors other than the coating itself or in relation to an unsuitable use or application method. In case of doubt, please refer to our technical service before applying the products.
