

SERVICOLOR INDUSTRIAL COLOURING PASTES 890

Product Code: 890

Description

Highly concentrated colouring pastes, formulated with high performance pigments, for tinting the bases of the Servicolor Industrial Tinting System.

Fields of Application

For tinting solvent-based products of our TITAN Industrial range.

TYI paste (code 8908919) is to be used only with our Servicolor Industrial alkyd range.

Technical Data

Pack sizes	3 l
-------------------	-----

Directions for use

GENERAL REMARKS:

For further information on colouring pastes, see our document Servicolor Industrial Colourants.

Automatic: Follow procedure stated in the directions for use of the Servicolor Industrial equipment.

Manual: Shake the colouring paste in its pack. Add the required amount of paste into the base or product to be tinted. Carefully stir the mixture up to complete homogenisation

Please refer to the technical sheet of each product for the recommended colouring paste rate. Adding a higher rate of colouring pastes may negatively affect the performance of the final mixture.

Precautions

Always read the pack label before use. For more information, please refer to the Safety Data Sheet.

Issue date: 2015-04

Any technical sheet is automatically cancelled by a subsequent sheet or five years after the issue date. We guarantee the quality of our products. However, we disclaim any liability in relation to factors other than the coating itself or in relation to an unsuitable use or application method. In case of doubt, please refer to our technical service before applying the products.
