

FIJADOR TITAN

Product Code: S91 0015

Description

Protective fixative for a wide variety of application techniques on paper: watercolour, charcoal, pastel and alike. It gets suited to the finish of the specific technique used.

Fields of Application

If used on watercolour or tempera, it provides a finish which is not workable. It acts as a final fixative.

Technical Data

Finish	Depending on the surface applied
Colour (UNE EN ISO 11664-4)	Colourless
Density (UNE EN ISO 2811-1)	0.75 - 0.85 Kg/l
Drying at 23°C 60 % RH (UNE 48301)	3 - 5 minutes
Pack sizes	200 ml

Directions for use

GENERAL REMARKS:

Shake the can to homogenise the contents. Keep on shaking until hearing the mixing ball inside the can (approx. for 1-2 minutes). Occasionally repeat shaking during application.

It is necessary to previously test the fixative on the surface and the painting technique applied in order to see if results are satisfactory.

Directly apply by thin coats on thoroughly dry colours. Apply at a distance of 25 cm. from the surface to be protected. Spray from side to side and by thin and quick coats and surpassing the limits of the work. Then vertically spray in order to uniformly spread the fixative on the whole surface.

Do not insist on any areas. It is better to apply a new coat when it is completely dry.

Depending on the number of coats and the application technique, the final appearance, gloss grade and colour deepness may vary.

Precautions

Always read the pack label before use. For more information, please refer to the Safety Data Sheet.

Issue date: 2015-05

Any technical sheet is automatically cancelled by a subsequent sheet or five years after the issue date. We guarantee the quality of our products. However, we disclaim any liability in relation to factors other than the coating itself or in relation to an unsuitable use or application method. In case of doubt, please refer to our technical service before applying the products.
